Exercise 2: Website for International Conference using HTML5 and CSS3

Swetha Saseendran

CSE-C

185001183

Learning objective:

Develop a Website for an International Conference using HTML5 and Cascading Style Sheets.

Use the website you designed using HTML5.

Specifications:

While designing the web page:

1. Use Inline, Embedded, External Style Sheets.
2. Use box model, outline concepts.
3. CSS concepts with table, list, links, forms, anchor etc.
4. Write rules with rule cascading and inheritance.
5. Include Tooltip, Icons, Graphics, Animations, and Transformations.

Note: To design the website in a neat presentable, attractive manner.

ABOUT US

International Conference Alerts provides details about the upcoming academic conferences, seminars and workshops to be held worldwide. Academician and professionals can get their relevant updates and conference alerts through International conference alerts. International Conference Alerts provides a free subscription to its users with email notifications about upcoming Medical conferences, Engineering conferences, Business and Economics, Science and education and various conferences. Users can register and subscribe to get free conference alerts regarding upcoming international conferences 2021 at Dubai, Germany, Singapore, Thailand, USA as well as all major cities and countries across the world. This is the exact reason why internationalconferencealerts.com was established - to provide the masses, up-to-date and incredibly reliable information on all upcoming conferences, in a variety of fields.

Many prominent and successful researchers, scientists and scholars have attributed their success to international conferences that they attended early on in their careers. They cited the great learning, networking, and collaborative opportunities that these conferences present, as being the reason for their success. International Conference Alerts offers conference organizers/planners the provision to better target potential conference delegates by allowing them to add details about their upcoming events to our existing conference listings. Numerous conference organizers and planners have witnessed remarkable growth in attendance at their events, after posting information about these events on our website! So take advantage of these provisions and expand your career or learn more about the latest developments in your field, today.

Conference Call for Papers

The 3rd International Conference on Advanced Research in Social Sciences (ICARSS), March 11 – 14, 2021 in Oxford, United Kingdom, is the premier forum for the presentation of new advances and research results in education theory and practice.

This conference is a prestigious event, organized to provide an international platform for the academicians, researchers, managers, industrial participants and students to share their research findings with global experts. All full paper submissions will be peer reviewed and evaluated based on originality, technical and/or research depth, accuracy and relevance to conference call for papers.

Submission Format Authors must follow the Springer LNCS formatting instructions. For camera-ready papers use Latex or Word style. Each paper will receive at least three reviews. At least one author of each accepted paper must register by the early registration date indicated on the conference website and present the paper.

SOME OTHER FEATURES IN ALL PAGES:

1. Sticky Navbar and Transform Animation on social media icon on hover (For all pages):

2. Highlight on hovering over the Navbar

LEARNING OUTCOME:

- Learnt about the attributes for the HTML5 tags and CSS3 attributes, selectors and used it in the assignment.
- Learnt to become familiar with CSS design principles that relate to web design and learn how to implement them into practice.
- Understood that changing styles and redesigning pages is much more efficient with external CSS files since you only need to change these styles in one file instead of all your HTML files.
- Developed an understanding of how CSS can enhance the design of a webpage to create and apply CSS styling to a webpage and consider audience and purpose when developing CSS styles.
- Understood the usefulness of writing rules with rule cascading and inheritance.
- Learnt to use CSS concepts with table, list, links, forms, anchor etc. and to include Tooltip, Icons, Graphics, Animations, and Transformations.
- Learnt CSS grid layout and box-model.
- Understood the importance of making web pages accessible, well-formed and user friendly.
